THE BUSY BEES

Have you noticed a tired and preoccupied look on the face of your fellow citizen, going to or from the train, at the Post Office or shopping in Ste. Anne? No! He (or she) wasn't on a binge last night. He was at an Association Committee Meeting, planning for your entertainment and enlightenment and is cogitating the problems to be discussed at the next meeting. Yes, your Committees have given a lot of time and thought, during the past three months, to the problem of what you expect of your Association and how it can best live up to your expectations.

As a result a Programme has been drawn up providing for at least one event per month in addition to the monthly business meeting. Most of these events are mentioned in this Issue and you will note that they cover a wide range of interests.

I think you will agree with me that your Committees, under the whip of Programme Committee - Slave Driver Nagley, Chairman - have done an excellent job. No matter what your age or interests you will find some events that will interest you.

Let's show our appreciation and boost our Association by each and everyone of us getting out to these events. Don't "leave it to George". If you have any criticism or suggestions or are willing to help in any of the work, get in touch with any member of your Executive or Committee Chairmen. They are really anxious to hear your ideas and welcome your help.

Harry Smythe, Treasurer.

THE RECORD

The regular Monthly Meeting was held on March 12th. at the Town Hall with 30 people in attendance.

Arrangements to have Chimneys swept at a cost of \$1.00 per flue were finalized with citizens being assured of several days notice beforehand.

The Bell Telephone Co. will not service Station Road with equipment until such time as the scrub elm has been removed.

Names appearing on the Service Scroll were read. This list will be posted at the Town Hall for any additions or corrections, after which, the amended Scroll will be completed for the next meeting.

Fact Finding Committee submitted three obligations this Association would be obliged to adhere to, to become a Member of the Montreal Community Council. Since no person is available at the moment to attend that Organizations' regular meetings, which is one of the provisions, it was decided to table this question for the time being.

A competition of Landscapes and Gardens will take place in June and Flowers and Vegetables in August with a Cup being donated for the most points. This competition will come under three groups: Professional, non-professional, and New Homes.

Sale of Home Cooking will take place April 3rd at 3:30 p.m. at the Town Hall.

Larger attendance is requested for the Movie Club.

Following a discussion, a resolution was passed which in effect will ask the Town Council to consider the advisability of amending Building By-Law No. 60 under the appropriate provisions provided under the Cities and Towns Act of the Province of Quebec. Briefly the proposed amendment would regulate type and quality of construction as well as location on a building lot, also the location of the building in relation to the districts and zones to be mapped out under the amendment. The proposed amendment would compel proprietors to submit plans of proposed buildings to a designated officer and obtain a certificate of approval. In addition to this a clause would be included to regulate or prohibit the use of all bridges, viaducts, tunnels, drains, sewers, privies and cesspools within the Municipality and to cause the cleaning or removal of privies and cesspools.

Bill Parker, Secretary.

Have you got that Spring Feeling and maybe a little Wanderlust? WELL don't forget to wander down to the Town Hall on Friday, April 9th. for the next Monthly Meeting.

After the regular Monthly Meeting on April 9th. the Horticultural Committee have arranged for a speaker, Mr. G. Russell Snyder, who will give a twenty minute talk on the Application of Science to Gardening and will show a sound colour film on Vegetable Insects.

Mr. Snyder, of Canadian Industries Limited, is well qualified to speak on various agricultural topics having had a wide experience in this particular field. He is at present a member of the Development Department of C-I-L's Agricultural Chemicals Division.

Born in Ontario, he attended HumberSide Collegiate and was later graduated from the Ontario Agricultural College with a Bachelor's degree in Agricultural Science and was later awarded his Master's degree.

Before joining C-I-L, he spent two years in Cuba as overseer of a sugar cane plantation. On his return to Canada he became a member of the staff of the Department of Chemistry at the Ontario Agricultural College in Guelph, where he spent eight years.

In 1937, he joined the Company as a Soil Chemist and since that time has been engaged primarily in research. Quite naturally, Mr. Snyder is interested in gardening and is also an enthusiastic golfer and fisherman.

A larger attendance will be encouraging.
